W. M. Mackey, received as information.

The bill to "create the office of Iuspector-General of Timber and Lumber," &c., was called up.

On the second reading of the bill, the second section was so amended as to deprive the inspector-General of the power of appointing the inspectors and measurers. The sixth section of the old ordinance reads:

"All sticks shall be distinctly marked with the size and length, and private mark of the sur-Alderman T. J. Mackey suggested that as it

was not at all necessary to mark upon the sticks the size and length of the surveyor, the size and length of the sticks be marked upon them instead. After two hours' discussion, the bill was

slightly amended and passed to its third reading, and was then ordered to be engrossed for ratification at the next meeting. Alderman Greene said he believed that those

persons who signed the petition protesting against the adoption of the stevedores' bill had signed it without knowing anything about the Alderman T. J. Mackey, on introducing a re-

THREE THOUSAND PAXPAYERS OPPOSE THE BILL TO ESTABLISH A BOARD OF COLORED FIRE-MASTERS .- By reference to the proceedings of the meeting of Council last night, it will be seen that a petition, signed by three thousand taxpayers of the city, praying Council not to pass the "Bill to declare certain colored fire companies a part of the Fire Department, and to establish a board of colored firemasters in the City of Charleston," was read, received as information, and ordered to be published. The petition is as follows:

petition is as follows:

To the Honorable the Mayor and Aldermen
of the City of Charleston:
The undersigned, your memogralists, cutzens
and taxpayers of Charleston, respectfully present, that they have viewed with deep regret
and anxiety the introduction into Council of a
bill entitled "A bill to declare certain colored
fire companies a part of the Fire Department,
and to establish a Board of Colored Firemasters in the City o' Charleston," the provisions
of which, if enacted, will, in the opinion of
your memorialists, tend to serious evils, and
b) of detriment to the best interests of the
city.

The Fire Department, as now constituted, has ever been harmonious, efficient in service, and in all respects has realized the hopes of the community, and still retains its fullest

confidence.

The introduction into the department at this time of an element of discord and dissatisfaction to its members, such as is contemplated by another and rival Board of Firemasplated by another and rival Board of Firemasplated by another and rival Board parameters.

tisfaction to its members, such as is contemplated by another and rival Board of Firemasters, composed exclusively of colored persons, is not only uncalled for by any exigencies of the service, but will add largely to the burden of the service, but will add largely to the burden of the service, but will add largely to the burden of the service, but will add largely to the burden of the service, but will add largely to the burden of the service, but will add largely to the burden of the service, besides this, the size of the department, both as regards the number of engines and its members, is larger than that of any other city in the Union in proportion to its population, and its increase would only render it unwieldly and cumbersome.

Composed, as the department now is, of material concordant and homogeneous, united together in a band of fellowship from long association and f eling of deep interest in the welfare and safety of the community, they are jealous of any innovations which would sully their good name and ultimately result in the diamember ment of the department.

In these feelings your memeri dists deeply sympathize, and they pray that the Fire Department of Charleston, so long considered as a model for all others, may remain undaturbed under its present admirable and satisfactory organization.

And your memorialists will ever pray &c.

And your memorialists will ever pray, &c. Alderman T. J. Mackey, at twelve o'clock last night, endeavored to bring the bill up, but the members were wearied out, and adjourned without permitting him to do or say anything in the matter.

Gentlem's.—I have received your letter of the 15th of December, 1866, calling my attention to your (Darby's Prophylactic) Flutd.

I most cheerfully state that the Fluid was furnished to, and extensively used by, the surveons in charge of general hospitals in the Confederale service with great benefit to the patients—all the surgeons making a favorable report—a great deal of it was used to the hospitals.

Very respectfully, your obedient servant,

EMORY COLLEGE, GREORD, GA., December 28, 1868.

Prof. DARRY. Dear Sir—Having not been engaged for many years in the active duties of the Medical profession. I am only superficially acquainted with the claims of your Prophylactic Fluid, but am well acquainted with its chemical elements.

While, therefore, I cannot speak experimentally of the value of the compound, vet the disinfecting and therapeutic properties of the agents employed in its composition, together with the well known reputation of its discoverer, as a chemist, authorize me to regard its merits as of a high order; on the whole it must be considered as a valuable contribution to the class of articles to which it belongs.

These views, I may add, are sustained by the testimony of many competent judges, who have tested its properties.

Believs me, dear sir.

Yours, respectfully.
